Location and Condition of This New Favorite.

GOOD SHOWING OF QUARTZ

IN A SECTION RICH IN ITS MIN-ERALIZATION.

Judge McConnell Writes Regarding Blue Mountain Mines-The Old "Dead Shot," or the Valley View -Ore In the Garnet-Heavy Stock Transfers-Mining Notes.

The hearty reception accorded the initial appearance of Monarch stock on the board of the exchange yesterday and the crase this security caused in the pit led to many inquiries being made afterward concerning this prop-erty, which, it is believed, is destined to

erty, which, it is believed, is destined to become a money-making favorite with the investment public, both on account of its low price and the promising property on which the company has based its incorporation.

The Monarch, The Herald is informed, is comprised of a group of five claims which are located down Silverado canyon on the west slope of Lion hill and on a direct line with the La. Cigale and Omaha mines on the West Dip, besides which it is not so very far from the Little Pittsburg mine across the canyon from the Chloride Point and Columbia mines.

Columbia mines.

The property has been in course of development for a year or two, the latest exploration in this line being the sinking of a working snaft, which has reached a depth of eighty-five feet, the reached a depth of eignty-live feer, the latest advice from the mine, received yesterday, being to the effect that the bottom had just broken into an immense body of decomposed quartz, which, from all appearances, carries good gold values. In fact, the condition of the property at the present time warrants the belief that it is the making of a bonanza mine and the company will now push work in its development with greater energy than ever, and another shift will doubtless be put on at an early day.

The Monarch adjoins the Gold Bug group, in the workings of which splended bodies of leaching ore have been exposed, which carry gold values of \$5 to the ton and up, and it is learned that the officials of the Gold Bug company anticipate the erection of a mill on the

anticipate the erection of a mill on the property during the coming spring.

The Monarch is admirably located and is in a richly mineralized section, and, at the time of its discovery and location, was considered as being the jost promising prospect in that local-

George Romney is president of the company, while W. T. Edwards is sec-

BLUE MOUNTAIN MINES. Wealth Galore In the Mountains East of Vernal.

Judge J. T. McConnell, United States commissioner at Vernal, in a letter written to a friend in this city, men-

written to a friend in this city, mentions the gold discoveries in the Blue maintains as follows:

The locations of the mines are about twenty-two miles east and a little south from Vernal, and extend east to the Colorado line. Mr. McCasin has been on the ground and reports about lifty locations aircady made, and the cush is still on from this point. The am is about thirty feet in width, and is reported as being a contact vein, with a good showing on top of the ground.

assays run from \$3 to \$2,260 pe The assays run from \$3 to \$2.200 per ron, the average, however, being about \$100 per ron, and this from several different assayers and from different parts of the country, some from Denver, Salt Lake City and Pennsylvania siso from Chicago and others from Aserour, Eureka, Tintle and Provo, Alparties who have been on the ground are very enthusiastic over the find, and all who have been fortunate enough to enough a location are pushing develop-

secure a location are pushing develor ment work and endeavoring to have a their claims secure before the expect-rush comes in the spring.

Hor. L. Johnson just returned from the examp last night, and he, like Me ("aslin, thinks there can be no minute bout it being one of the greates chas in Utah, and as he are crup at on the surface the full which of the lin, there will be little expuse at sched in mining the over and develop the the mines as the again; show to the niles, as the assays and the niles as the assays paying proposition from the ... The Golden Wonder lode, we twenty-five locations, lies about south and parallel with the lod is causing the present excitement, and is forty feet between walls. This propvein a depth of thirty-five first, and analysis running from \$5 to \$55 per to and being a cyaniding proposition, as teast so pronounced by all who have examined the ore. There is plenty of timber, wood and water, and every thing on and near the ground that goe and a second mining comp, some

thing on and near the ground that goes to make up a good mining camp, some of the locations being as near as five or six mines from Green river.

This report is made not to induce parties to come in on any excitement at this time of the year, but it is a conservative report, made from state ments from such conservative ment and Hessia. McCasilin and Johnson and many other good business men from our town, who have been on the ground. In fact, the matter was suppressed as long as possible in order to not oreast a stampede during the winter, but a report of one or two assays from the Goiden Worder got out with those who were watching the development of this property and the rush control of this property and the rush event of this property and the ru

HEAVY STOCK TRANSFERS.

Stock Investors Witness Great Er citement During the Call.

Vesterday was another great day the floor of the mining exchange, an almost every security called receiv recognition at the hands of the brok and investor, the bulls ruling the p throughout the session, as skywar tendencies were noticeable in a larg number of stocks, but very few sur

ment.

Daisy, which fell with such a "sick-ening thud" on the previous day, was again a favorite and sold on a steadily advancing market. Four Aces was a dealer at about the ruling quotations of the day before. Geyser-Marian was firm and a selfer to a limited extent, while Galena was also a dealer. Mamnoth was one of the leading features of the call, and shot out of sight before the close, being in earnest demand when the caller shouled, "next stock," at quotations given below. Mercur was traded in, but at a slight decline, and Merthern Light engaged in the business of the hour at figures slightly in silvance of those of the previous call. Lower Mammoth was stationary, although a dealer and in good demand, Sereamento and Sunshine not being verlooked by investors. One of the elementons of the rail of the listed stocks was the rapid advance chron-blied by Star Consolidated, which, selling at \$1.14 on the day before, advanced to \$1.22.5, at which quotation sales yers made, the selling beginning with Daisy, which fell with such a "sick-

of to the selling beginning with a bid of \$1.21.

In the unlisted stocks, Bullion-Beck Tunnel and Ruckeye were traders at noar the figures of the previous day.

CRAZY FOR MONARCH | ception and established excellent quotations for a newcomer. Camp Floyd and Dalton were sellers, and Dexter posted and sulfas and vas on the upgrade. Eagle & Blue Bell was dealt in | James M. O'Brien, | grade. Eagle & Blue Bell was dealt in at \$2, and Emerald at 12½ cents, Frisco pilling up quite an erray of sales to its credit. Joe Bowers was very strong, and changed hands at about the quotations of the previous call, Joe Bowers Extension being a trifle weak. Manhattan was practically unchanged, although a dealer, while McKinley and Martha Washington were able to make a good showing as ne wlegimers. The greatest excitement prevailed during the call of Monarch, and this new stock was a heavy seller at figures ranging from 1½ to 2½ cents.

The transactions of the day were as follows:

THE VALLEY VIEW.

Resurrection of the Old "Dead Shot" Mine Up In Idaho.

F. E. Wilson, one of the omenasted temporary manager of the Valley View temporary manager of the Valley View and I never can find words with which the control of the contr F. E. Wilson, one of the officials and lief from utter discouragement. She Mining company, has returned from a Mining company, has returned from a visit to Hailey and Bellevue, Ida., near which places the property of the company, embracing what erstwhile was known as the "Dead Shot" mine, is located, and he states that he is well pleased with the appearance of this old producer, which, in years gone by, was accredited with an output of many thousands of dollars in ore running seed to the ton in the precious metals, most

accredited with an output of many thousands of dollars in ore running \$500 to the ton in the precious metals, most of warca was taken from near the grass rooks or what is termed the "upper workings" of the mine.

Eefore returning home Mr. Wilson engaged men to assist in the operation and development of the Valley View, besides which he purchased track and cars for the tunnels already run in the exploitation of the mine, it being that intention to push the upper one still further in on the vein, with the expectation that it will disclose another of those chutes of rich ore which have made the property so justly famous in the past, while the lower tunnel, which is now in a distance of 150 feet, with some ore in its face, will be extended with the expectation of disclosing the body of ore exposed in the upper workings of the mine, and it is believed that this desired connection will be made within a distance of fifty feet more.

Dr. W. Y. Croxall of this city, and one of the shareholders of the company, who was in the yieinity of the mine on professional business while Mr. Wilson engaged men to assist the carried what is a continue to the property of the company, who was in the yieinity of the mine on professional business while Mr. Wilson engaged men to a produce of value and merit.

ORE IN THE GARNET.

Operations Being Pushed In the De- and answered by women only. velopment of This Tintic Mine.

R. G. Smith, secretary of the Garnet Mining company, who has just recently returned from a visit of inspection of ly returned from a visit of inspection of the property of the association, which is located between the Star Consolidat-ed and the Sunbeam, in Tintic district, is well pleased over the flattering show-ing in this ground, and he is of the opinion that in its continued operation it will pay for development work by ore shipments almost from the start. From the face of the 400-foot tunnel, in the Magnet a winze is being sunk on a well defined vein, which already car-ries with it an eight-inch streak of ore

ries with it an eight-inch streak of ore which assays in the neighborhood of 19 per cent copper, 40 ounces silver and \$2 in gold to the ton, and as the winze has

in gold to the ton, and as the winze has attained a depth of sixty-five feet, and the mineral deposit is gaining in size with depth, it is believed that in due time the property will be able to come to the front as a regular shipper of a good grade of ore.

The tunnel mentioned above was driven its entire length on the vein, in addition to which, in which is called the "lower shaft" in the Garnet group, which has been sunk already to the 10-foot level, there is an 8-inch streak of mineral which carries average values of from 40 to 50 per cent lead, and over 100 ounces in silver to the ton.

Sunbeam will go out to this Thine properties, and the sampler yesterday with a fine lot of cyanifes, and also with a consignment of gold buildon. Report has it that some Provo boys have struck it in the Superior claim in Thiti district northeast of the Uncle Sam and Humbug.

From parties in from Bingham it is learned that the mine will be a heavy shipper this year.

The Monarch McKinise, Martha Washington and Crown Point properties have been placed on the beard of the exchange among fine unlisted stocks. 70-foot level, there is an 8-inch streak of mineral which carries average values of from 40 to 50 per cent lead, and over 190 ounces in silver to the ton.

It is the intention to push work this season in the systematic development of this greened.

of this ground.

Machinery For Tintic.

D. L. Gregg of the Utah & Montana Machinery company, which was awarded the centracts for the steam hoist for the Joe Bowers Extension and the air compressor for the Star Consolidated minos in Tintic district, returned to the city yesterday from both properties. An extra car and track has been sent the term to be stated that the hoist of the Joe Bowders Extension was now nearly in place, and that within the next few days it would be given its trial run. The cage for the shaft will also be sent down within a day or two, so that operations in the working of this ground can soon be pushed with greater vigor and to better advantage than ever.

The compressor is now at the Star, and it will be placed in the lower workings of the mine in order to facilitate the operation of the machine drills, by means of which some extensive work will be done in the future in the exploration of this magnificent piece of mining property.

Mr. Gregg reports wonderful activity all over Thintic district, and he is of the opinion that this section is on the eve of a great boom.

Elmer Ray Operations.

L. E. Riter and C. E. Loose, owners of the old Elmer Ray mine in the Silver Park at Silver City, and distinct, and adjoining this property, and some company was to have been held year of the states of the state was appointed as counsel for defendent and adventy four hours given to plead, and that within the next few days it would be given its trial run. The cage for the Fremont Mining Advance of Jacoba Hardon and Interest of the Fremont Mining Advance of Jacoba Hardon and Interest of the Fremont Mining Advance of Jacoba Hardon and Interest of Jacoba Hardon and Interest of Jacoba Hardon and Interest of the Jacoba Hardon and Interest of Jacoba Hardon and Interest of and to a representative of The Herald he stated that the hoist of the Joe Bow-

the mine by means of a double com-partment shaft which is to be sink to the deep, the statement being made that this property will most likely form the basis for another mining incorpora

The Elmer Ray, which was the first mineral discovery and location to be made in that locality, is on the Sun-beam ledge, and the mine has the credit of being one of the richest of the old producers in the southern end of the district. The claim was patented in 1881, and

the patent papers bear the signature of ex-President R. B. Hayes.

Stocks On the Curb.

Curb dealings were largely confined yesterday afternoon to a few of the leading securities. Star Consolidated being one of the tavorites and a heavy selier in 1,000-share lots at \$1.26. Lower Mammoth was also a heavy trader, and posted transfers of several thousand shares at \$1. Northern Light was firm at \$1, and a dealer at this quotation. Joe Bowers was in demand at 25 cents, and sales were recorded even above this quotation, welle Joe Bowers Extension held its own in good shape, and was a seller at 1616 cents. Monarch was sought donlers and was traded in at 2% and 2% cents.

Amalgamation of Copper Interests. Chicago, Jan. 24 .- The Times-Herald says: Amalgamation of the conne mine interests of the Houghton district and of Montana has been delayed by the severe illness of Levi Mayer. Mr. Mayer was one of the important factors in the deal which was to produce an American corner syndicate last week, but his sudden taking ill with the grip has set all negotiations ack until his recovery. be able to return to New York ity is not yet known.

Silver and Lead. The silver and lead quotations yesterday were as fellows: Bar silver, 59% cents. Lead, brokers', \$4.

opper, casting, 1315 cents. Ore and Bullion.

The ore and bullion receipts yesterday were as follows: McCornick & Co., buillon, \$5,350; ores Bamberger & McMillan, ores, \$1,933.

SINGULAR STATEMENT.

The following letter to Mrs. Pinkham from Mrs. M. RANK, No. 2,354 East Susquehanna Ave., Philadelphia, Pa., is a remarkable statement of re-

times was miserable. So it went on until last October, I felt something terrible creeping over me, I kne v not what, but kept getting worse. I can hardly explain my feelings at that I' was so depressed in spirits that I did not wish to live, although I had everything to live for. Had hysteria, was very nervous; could not sleep and was not safe to be left

"Indeed, I thought I would lose my mind. No one knows what I endured "I continued this way until the last of February, when I saw in a paper a testimonial of a lady whose case was similar to mine, and who had been cured by Lydia E. Pinkham's Vegetable Compound. I determined to try it, and felt better after the first dose. I continued taking it, and to-day am a well woman, and can say from my heart, 'Thank God for such a medi-

Mrs. Pinkham invites all suffering women to write to her at Lynn, Mass., for advice. All such letters are seen

Holdaway et al., situated in the north Tintic mining district.

The Annabell, by Engene Winn, situated in the Santaquin district.

The Discovery Hole, by J. H. Jarvis, situated in the Santaquin district.

A mining deed has also been recorded whereby all the right and title of Thomas Clanard in the Edorado, "Nigger" and Juror mining claims situated in Payson canyon in the Eldorado district, was transferred to the Eldorado Mining & Milling company.

Mining Notes and Personals.

The Washington mine near Frisco will orm the basis of an incorporated com-

Hon. Thomas G. Merrill of the South Sunbeam will go out to this Timic prop-erty this morning.

The Centennial-Eureka had three car-louds of a good grade of copper, silver and gold ore on the market yesterday and another consignment is expected in to-day. Eagle & Blue Bell shareholders are

Eagle & Blue Bell shareholders are feeling chated over recent flattering reports from this gilt-edged property, which is destined to make a barrel of money for its owners.

J. B. Taylor, who is operating in Blugham, is in the city on business. Nick Castro, of the "Old Reitable," in in also, Mr. Castro is the owner of the famous Greek mine in that camp.

An extra car and track has been sent down to the Silver Park at Silver City, as it is the intention to put on a double shift in the cleaning out of the old work-ings of this ancient wealth producer.

the 19th of next month. This doubtiess means that the company will pay no dividend this month.

W. J. Lawrence of the Star Consolidated, near Marmoth who came in from this bonanza proposition yesterday, states that the mine is looking well in all its workings and that the big air compressor had just arrived. The Star is booked for a large rhipment of high-grade ore in the immediate future.

Superintendent George Weston of the Circe mine on Lion nill, adjoining the Northern Light, was in the city yesterday on business with the company. It is believed that the Circle covers an extension of the mew strike in the Northern Light and Mr. Weston is running a tuniel to open it up and so far the showing is most encouraging.

At the annual stockholders' meeting of the Hercules company of Lion hill, held yesterday, the new board of directors to serve for the encouraging.

At the samual stockholders' meeting of the Hercules company of Lion hill, held yesterday, the new board of directors to serve for the encouraging.

Similar secretary: George W. E. Dorsey, irreasure, and P. J. Pollock, president; Max Smith, secretary; George W. E. Dorsey, irreasure, and P. J. Pollock. The Hercules is strictly in the swim just now and is a popular stock with investors.

Something new in the machinery line has just been received by the La Reine Mining company, being nothing less than a compressed air used by the La Reine in the operation of its machine drills. The metre weights 1609 pounds and is the only one in use in Utah as far as is known.

Same aplendid looking copper ove was brought in yesterday from the mine of:

one in use in Utan as far as is known.

Same spieudid looking copper ore was brought in yesterday from the mine of the titinois Mining company in Spring guich Bingham, adjoining the Congor copper mine, and it is stated that the mineral came from a new strike which has just been made in this promising property. Sam A. King, one of the heavy inciders of illinois stock, is well pleased over the reports from the mine.

The excitment over Mammoth stock

over the reports from the mine.

The excitement over Mammoth stock vesterday was only accounted for in mining circles by the fact that sometime of a gratifying nature had occurred at the mine. At the office of the company, however, all knowledge of any new strike was denied, but on the curb it was given out in a mysterious manner that an important find had been made in the workings of this grand old wealth producer and that ore had been uncovered which assayed from \$29 to \$20 in the yellow metal to the ton. As a usual thing the officials of the company are two or three days behind the times when a new discovery is made in this property, as the street generally gets an inkling of it first.

street generally gets an inkling of it first.

Messrs, L. H. Curtis, Joe H. Young, D. P. Tarpy and Hobson and Hunsicker made a visit of inspection Monday to the New Mammoth mine in the Dalton & Lark country, Bingham, They were well pleased over the spiendid condition of this prospective bonanza, in which immense quantities of high-grade milling ore are exposed. As a matter of fact, ore is now making so fast in the workings of the mine and there is so much more of it than anticlipated at this stage of development that the company decided yesterday to build a mill of 150 tons daily capacity instead of 160, and additional tanks and machinery have therefore been ordered. There will be ten of these tanks, which will be of steel and twenty-two feet in diameter, with a depth of four feet, ten inches, the bottoms to be a quarter of an inch thick and the sides three-sixtecuths of an inch.

NEWS FROM OVER THE STATE.

BOX ELDER'S AFFAIRS.

County Commissioners Transact Big Batch of Business.

(Special Correspondence)
Brigham City, Jan. 23—At the regular session of the board of county commissioners held here yesterday a full board a present.

Cition from residents of Snowville ad district asking for the appointment William Cottam, jr., as road supersor was presented and referred back the signatures of more resident tax-

visor was presented and referred back for the signatures of more resident taxpayors.

Pretition from residents of Mansia precinct asking for the appointment of Peter Mortengen as road supervisor was read and deferred, on the grounds that Mansia precinct is included in Bear River road district.

The petition of John Nielsen et ât, of Mansia seking that the road now crossing the east half of the northwest quarter of section 34, fownship 9 north, range 1 west, he moved as near as practicable to the west boundary of said and, was on motion, deferred and the cierk was instructed to ascertain from the records if said read is a county road.

N. B. Chency represented to the board that sixteen acres of said, belonging to him was sold to the county for taxes in February, 1807, without his knowledge, and that he has paid the taxes on said land for the years 1897-8. He asked that the county pay the amount required for redeem this land. It was decided that Mr. Chency be allowed to redeem the land by paying the amounts due the state, state school and county school for taxes, interest and expense of saie.

A petition from residents of Honeyville asking for the appointment of israel Hunsaker as justice of the peace, and Lee Bybee as constable in and for Calisfort recinct, was read and referred back for signatures of more of the resident taxpayers.

The county surveyor was authorized to revise the assessor's maps to date. He will be allowed \$3 per day for the services.

County Treasurer Clem Horsley applied for the accounted of a session time to the resident that a service of a session time to the resident taxpayers.

revise the assessor's maps to date. He will be allowed \$3 per day for the services.

County Treasurer Clem Horsley applied for the appointment of an assistant in his office during Jarfanny, and on motion the application was grainted and \$80 was, allowed at salary.

Shaft No. T is billed for Provo on Friday, the Esth.

Immes E. Hall of Springville was here today on business.

At a meeting of the board of education this evening three petitions were read by school patrons. One was by the residents of the Second asking for a new school building in place of the old Franklin house, which they claim is unfit for use. Many signatures were attached to the petition, which was also accompanied by doctors' certificates corroborating the patrons' statements that the building should be condemned. The other petitions from the patrons of the Fortifield district, and Pleasant View district, asked for the erection of new schools and additions. They were taken under advisement.

SUING FOR DIVORCE.

Mrs. Maddick Wants Freedom From Marriage Tie.

(Special Correspondence.)
Farmington, Jan. 24.—Elizabeth Maddick is suing William Maddick in the Second district court for divorce. She alleges failure to provide, and asks that she be awarded the custody of two chil-

dren, aged 3 and 2 years, respectively.

The filing of the suit recails the sensational elopement of Mrs. Maddick last October, when she deserted her husband and children and went to Salt Lake, where she was reported to be living with her lover, a worthless railronder named Bennett.

The couply were married on May 10, 1884, and to all appearances lived happily. Mr. Maddick was necessarily away from home a great deal at work, and it was during these absences that it is supposed his wife met and became infarmated with Bennett. Last October the Maddicks prepared to move north to Idaho, where the husband had promise of regular employment, accordingly they took pussage on the Short Linn and want as far as Oxfor, where Mrs. Maddick excused herself for a lew moments, while she went detenibly to parchime some delicacy for the children. Her husband heard no more of her until it was reported that she was in Salt Lake with Bennett, it is rumared aime that Bennett deserted her and went to California. The woman is now in Salt Lake, and the children are in Kayawille.

FREIGHT STRIKE AT PRICE.

Offer of Seventy-five Cents Rejected By the Freighters.

(Special to The Herald.)
Price. Utah, Jan. 24.-W. E. Travis Special to The Remain

Price, Utah, Jan. 24.—W. E. Travis, contractor for government freight transportation to Fort Duchesse and White Rocks agencies, was here to day endeavoring to patch up matters with the teamsters, but the strikers refuse an offer of 75 cents per hundred for the haul and fonight affairs are as far from settlement as ever. Some freight was loaded today for Fort Duchesse at 5 cents by farmers who came up from Orangeeille. The Forwarders union and freighters are holding out for 31 and it may result in this price being agreed upon between Travis and other parties tomorrow.

Travis today offered in cents to have his contract curried out during the remainder of his time until June 39. His contract with the government is at 8% cents. For the same period last year, there were 25,000 pounds more or less transported.

There has been no violence or threatened intimidation on the part of the strikers, as reported in Salt Lake papers, and the leaders say there will be none.

SUGAR FACTORY PROPOSITION.

SUGAR FACTORY PROPOSITION. Gunnison Men Working Hard On the Project.

(Special Correspondence.) Gunnison, Jan. 24.—The mass-meeting held last Saturday in the interest of the sugar industry, resulted in the formation of a committee to formulate plans, viz: C. A. Madsen, who is credited with having made the first augar in Utah; C. A. Snort, O. R. Burglund, Thomas F. Kearns, and Henry Robbins. At a meet, ing of the committee yesterday, it was decided to raise means at present sufficient only to experiment with beet raising the committee was a number of the best farmers will respond in adding the committee to bring this great industry to the front for another senson.

A Dixie Pioneer.

Manti, Jan. M.—Colonei A. P. Hardy of St. George has been paying a brief visit to Manti to see his son, E. V. Hardy, who is a resident of this place. Colonei Hardy is one of the three first white men who ever made a track on the Santa Clara river, Washington county. He went there in company with that celebrated oid ploneed and good Samarium. Jacob Hamblin and Thales Haskell, called by Bricknam Young. The three men made their ching surrounded by Indians, on the banks of Santa Clara river in June. 1834. Colonei Hardy was then 2 years old and new 63 years. He, with the assistance of Tutta-Gabbit, an Indian chief, and a band of the Clara Indians, on the Fourth of July. 1854 put in the first dam to take out the water from the fiver for irrigation. It proved a great blessing to the Indians and was the means of fixing a permanent friendship between them and the whites, as with the water turned into the rich soil of the Santa Clara bottom land, they were enabled to grow the crops of corn, melons, beans, fruit, etc.

The colonel has lived continuously in Dixle since 1884 living a number of years on the Rio Virgen, between Duncan's Retreat and Virgen City. He is still hale and hearty.

PROFITABLE HOME

DIAMOND DYES MAKE HAND-SOME, UNFADING COLORS.

A Few Dimes Will Save Many Dollars.

In nearly every home there are faded and unfashionable dreases and coats that can be dyed with Diamond Dyes so they will look as good as new. Suits for the boys can be made from the father's partly worn clothes, and then colored with Diamond Dyes to look like new, while dresses and jackets can be made for the girls with little work or

made for the girls with little work or expense.

Many women dress their familles in handsome, fashienable clothing at a comparatively small expense, thanks to Diamond Dyes.

Diamond Dyes are put up specially for home use, and the directions on each package are so plain that even the inexperienced can get beautiful and unfading colors by using these dyes. They color anything from ribbons, feathers and weists to the heaviest coats and dresses.

There are some fifty colors in the list of Diamond Dyes, making all the fashionable shades. Be sure to use only the Diamond, as they are the only dyes that have stood the test of years and that can be depended upon for successful home dyeing.

NEW YORK'S BOLD THIEVES.

Ex-Mayor McGowan Robbed By a

Hotel Proprietor. New York, Jan. 24.-Frank A. Molowan, ex-mayor of Trenton, N. J., caused the arrest today of Simon Butt-ner, proprietor of a tenderion resort known as the Hotel Winslow on the charge that while in Buttner's place,

n Buttner's presence, he was robbed of \$2,600. McGowan claims that he entered the Winslow and asked for a cigar. He was told to step behind a screen, and alleges that there Futtner held a revolver to his head, cifled his clothes of jewelry and \$2.600 in cash, and ordered him out of the place, telling him he would be killed if he ever came back. Buttner denies the allegations in Mc-

Gowan's complaint The Ravages of Grip.

The Ravages of Grip.

X-RAY FOR L. SANITY.

Skiagraph Reveals the Location of Brain Tumors.

Chicago, Jan. 24.- As the result of a number of experiments with X-rays in this city, it has been asserted that the rays are to become a medium through which reason may be restored to inrane persons. It had been found that by the rays, brain tumors, responsible for many cases of alienation of mind, for many cases of alternation of mind, can be located. Preparations are being made by several emittent physicians for a test operation on what has been considered an incurable case. The patient will be a wealthy young man, who for several years has been confined in the asylum at Kankakes. The patient has already been examined by the X-ray process.

Those who conducted the experiment say that the skingraph has plainly

say that the skiagraph has plainly shown a tumor pressing on the brain. The physicians claim that the removal of the tumor will not be dangerous, and that they expect the young man's mind will be fully restored.
